

Draw a family of 5 different meerkats, then cut and stick them in height order.

Go on a number hunt around your local area. How many different numbers up to 10 can you find? Take photographs to record.

Create a feely bag of objects with different textures from around your home. Can someone else use their sense of touch to guess what they are? What adjectives could you use to describe the objects?

Create a fact page about meerkats. What special facts can you find out about them? Don't forget to include a picture.

Create a piece of art using leaf rubbings.

Year 1 Homework Autumn 2023

'There's no place like home'

Activities to be completed and **sent in on Seesaw** by Tuesday, 17th October. Please complete at least two activities over this half term.

You only need to spend a maximum of **20 mins per week (not including Reading or Numbots)**.
An activity may go over 2 or 3 weeks.

Don't forget every week to:

1. Read or share a book for 10 minutes every day, and write this in your reading record.
2. Use your Numbots login and practise your number facts 5 times per week.

Create an autumn dance. Think about what the leaves do in the autumn and how the animals behave. You might want to use the autumn music from Vivaldi's Four Seasons.

Thinking about our school value of thankfulness, write a list of things you are thankful for.

Practise writing your tricky words from last year. You could use rainbow writing, or collage the words: *he, me, be, we, she, was, they, all, are, my, her*

Create your own meerkat - you could make biscuits, cakes, a collage or use materials like hama beads.

Metacognition family challenge – Smell Detective – see PDF sheet attached.
