

Think of two numbers that make 10. Use your part-part-whole model to show this. Now can you write two addition and two subtraction number sentences. (See Seesaw activity)

Think of some adjectives to describe winter. Choose at least 2 of them and use them in sentences about winter. Draw a picture to match your sentences.

Our value this term is 'Thankfulness'. Think about a person you are thankful for. This may be someone you know or a famous figure. Write 2 sentences about why you are thankful for this person.

Can you be a historian and create your own family tree. You might print off pictures and write your family members name next to it. Remember to put a capital letter for a name!

Have a go at the family activity of 'Catch the Pennies'

Year 1 Homework  
Autumn, Term 2, 2023  
**Seasons Come, Seasons Go.**

Activities completed and **sent in on Seesaw** by Wednesday, 13<sup>th</sup> December. Please complete at least three activities over this half term.

You only need to spend a maximum of **20 mins per week (not including reading, phonics or numbots)**  
**An activity may go over 2 or 3 weeks.**

**Don't forget every week to:**

1. Read every day and write this in your reading record.
2. Practise the new sounds we have learnt in phonics. (These will be sent home)
3. Practise your Numbots daily.

Go on a local welly walk. What season do you think we are in? What clues can you find?

Create some shadow art. You may want to create interesting shapes with your body or toys. You could also show shadows changing throughout the day.

Practise tying your shoe laces. Remember to keep a **growth mindset** and know that learning new skills takes perseverance. Send us a video of you trying.

Read the attached poem - 'The Months'. Can you learn it to perform on video (this could be with the rest of your family)? Think about the actions you could do while performing, or pictures you could show to match what you are saying.

Can you recreate a coronation at home with your teddies, or your family?
