

Write some maths word problems using your favourite fairy tale characters. Can you include addition and subtraction problems?

Build a fairy tale castle at home. You could use lego or junk items from around the house or even make a cake in the shape of a castle. Take a photo of your creation to share with the class.

Look around your bedroom/house. Can you draw a poster to show the different materials that you can find. Why has that material been used?

Our school values this term is 'Justice'. Can you talk with a grown up about something that you think is unfair and make a poster for how you think you could make it better?

Year 1 Homework
Spring 1
Term 3 - 2024
'Once Upon a Time'

Complete 3-4 activities over this half term.
Only spend **20 mins per week (not including reading and spelling)**.
An activity may go over 2 or 3 weeks.

Please send homework in on Seesaw as and when you complete it by 7th February.

Don't forget every week to:

1. Read daily and write this in your reading record.
2. Practice the phonics we send home each week.
3. Practice on Numbots.

Design a wanted poster for a fairy tale villain. Don't forget to use lots of interesting adjectives to describe them.

Can you create a picture that uses only warm colours or cool colours? Think carefully about what emotion you want it to show and whether you need to use warm or cool colours.

Talk to an older member of your family (e.g. a grandparent). Find out whether they had all of the different things in their homes that we have today e.g. dishwasher, PlayStation, microwave, Skybox, mobile phone etc. If not what did they use instead? If they did then how have these things changed?

Have a go at the family Growth Mindset Challenge – 20 Questions which is attached to this homework plan.
